PROGRESS REPORT OF THE GEOGRAPHIC AREA, ORR

MONTH OF OCTOBER 1958

OFFICE OF THE CHIEF, GEOGRAPHIC RESEARCH

1 - St/A

1 - St/C

3 - D/GC

2 - D/GC

2 - D/GL

A. Accomplishments and Coordination Activities

1. An unusually large number of maps and reports were completed in the Geographic Research Area during October. Among them were a number of special studies prepared for higher planning staffs of the Agency. Major work in hand continues to be concerned with the programmed support of DD/P and OBI and the development of intelligence on USSR cities and Soviet geodesy.

1 - Chas.

1 - Mar.

Rpt.

2. The Cartography Division completed 147 maps and charts -- 141 for the Agency and 6 for the Department of State. Requests were accepted for 147 maps and charts -- 139 for the Agency and 8 for the Department of State.

3. The Geographic Area completed 1293 Geographic Intelligence Reports (GR-194, [REDACTED] GR-195, [REDACTED] GR-196, Border Roads in the USSR -- Central Asia Area; GR-198, Possible Guided Missile Testing and Training Ranges in Communist China; and GR-199, [REDACTED] one geographic intelligence memorandum in the CIA/RR-GM series (GM-10, The Offshore Islands); four NIS Sections (Sections 90, 91, and 92 of NIS 55, Ethiopia, Eritrea, and the Somalilands; and Section 19, Chapter I, of NIS 41B, South Korea); one contribution to the Chapter I Annual on Turkey; nine G/I geographic memoranda; and one support job in the G/S category.

4. The Map Library Division received 5,202 foreign-published maps during October, of which 34% were retained in CIA; 38% sent to AMS; and 22% to the Library of Congress. The Division sent out 27,953 maps in response to 1,304 requests; in addition, 205 geographic and cartographic items were distributed in response to 118 requests.

5. Chief, Map Library Division, completed a special TDY to Europe during which he reviewed Swedish mapping intelligence on the USSR and visited the principal mapping authorities in Poland. Very useful new information on Bloc mapping organizations, procedures, and personalities was acquired which will be fed into the collection programs of the DD/P and the Department of State.

Sanitized - Approved For Release : CIA-RDP61-00391R000200330004-9

S-E-C-R-E-T

6. Acting Chief/G and SA to Ch/G -- in company with others from the DD/I -- spent several days visiting ACIC, St. Louis, and SAC headquarters, Omaha. Both briefings were excellent and contributed measurably toward a better understanding of the target work being accomplished in USAF. Arrangements were made for the direct participation of D/GG in the revision of SAC E and E requirements.

25X1A9a

7. [REDACTED] USSR Branch, Geography Division, participated in discussions with the Washington Office of the Arctic Institute regarding intelligence interest in the Institute's Arctic Bibliography Project. A subsequent meeting of interested components within CIA will be held under OCR sponsorship to determine Agency willingness to support the project financially.

8. A series of conferences were held by the Cartography Division during the month with the objective of preparing a revised set of standard specifications for the NIS base maps produced by the Division. These specifications, when agreed upon, will provide new opportunity for production economy and streamlining.

9. The Geographic Research Area briefing for October, "Race Relations in Africa South of the Sahara", was presented by [REDACTED] of the Geography Division, who recently returned from an area-familiarization trip in the area.

25X1A9a

10. In response to questions raised by State regarding CIA/RR-G-20, [REDACTED] of GG/X met with Mr. Pringle, Department of State, regarding the Ecuador-Peru boundary. It appears that the Department's desire to reserve its position on this boundary dispute may be based, in part, on an erroneous valuation of the available topographic information. A request has been submitted to PIC for review of pertinent aerial photography.

25X1A9a

11. Proposals of the Chapter IX Subcommittee that schedules be relaxed -- which were forwarded to AD/BI on 2 September -- have not yet been presented to the NIS Committee. The AD/BI is exploring the possibility of reducing total time required for production of various sections -- through cuts in content -- so that commitments can remain as they are.

25X1A9a

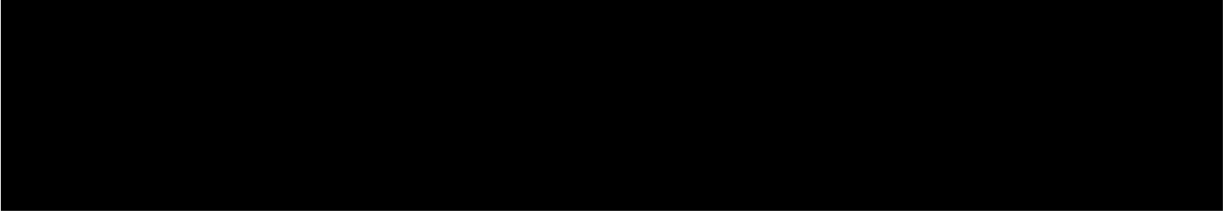

12. [REDACTED] of the Geography Division attended a week-long USAF colloquium on gravity at the invitation of AFCIN 3C2X. [REDACTED] also attended a dinner for Dr. M. M. Somov, head of the Soviet Antarctic Operations, and obtained additional information on Soviet plans and results in the Antarctic area.

25X1A9a

S-E-C-R-E-T

S-E-C-R-E-T

25X1X7

25X1A9a

14.

25X1A9a

25X1A9 (Chief, Map Library Division) and (Chief, Far East Compilation Branch, Cartography Division) departed for Tokyo during the month to attend the Second United Nations Regional Cartographic Conference for Asia and the Far East (20 October - 1 November).
25X1A9a Following the conference, will visit a number of Asian countries for the purpose of area familiarization.

MONTHLY REPORT FOR THE CARTOGRAPHY DIVISION

Month of October 1958

A. Summary of Cartographic Production and Accomplishments

1. During the month of October the Cartography Division accepted requests for 147 maps and charts, 139 for CIA and 8 for the Department of State. Of the Agency requests 68 were by ORR, 7 by OSI, 25 as CIA contributions to NIS, 6 by ONE, 19 by OCI, 4 by PIC, 8 by DD/P, and 1 by DD/S.

2. During the month the Division completed 147 maps and charts, 141 for the Agency and 6 for the Department of State. Cancellations during the month totaled 12.

3. The NIS Map Coordinator received 43 job requests during the month, 23 NIS maps for final printing, 5 NIS maps for color proofing and 15 maps from D/GI for re-running. A total of 50 jobs were sent by the Coordinator to reproduction during the month, 20 final NIS maps, 5 color proofs and 25 re-runs. Receipts from reproduction totaled 68 maps, 21 finals, 14 color proofs and 33 reruns, leaving a backlog in the unit of 53 requests, 20 final maps, and 33 for re-running.

4. The total number of maps and charts in the Division at the end of October was 405, distributed among the Branches as follows:

USSR and Satellites	63
Far East and Western Hemisphere	89
Europe-Africa	40
Special Support	31
Development & Construction	182
(Exclusive of Drafting Sec.)	
Total	405

5. Manhours required by overtime during the month amounted to 179, 54 in Comp~~254140~~ and 125 in Development and Construction (30 of which were by [REDACTED] for OTR).

B. Administrative Problems and Other Activities

1. The Division Chief, in company with others from the Agency, spent several days at ACIC, St. Louis, and SAC Headquarters in Omaha. Both briefings were excellent and contributed measurably toward a better understanding of the target work being in accomplished in USAF.

S-E-C-R-E-T

S-E-C-R-E-T

Monthly Report - Cartography Division

October 1958

25X1A9a

2. [REDACTED] Chief, GC/F, departed Headquarters for TDY in Tokyo and other areas of the Far East. He attended the Regional Cartographic Conference in Japan, 20 October - 1 November, and will tour several Far East countries prior to his return to Washington.

3. Division efforts to reduce overtime are reflected in the above figure of overtime used during September. This figure of 179 manhours compares with the use of 375 for June 1958. Efforts will continue to reduce overtime further during the coming months.

4. During the month a series of conferences were held with the objective of preparing a set of standard specifications for the NIS base maps produced by the Division. Standard specifications, when agreed upon, will represent an economy in time and a streamlining of procedures.

5. During the absence of [REDACTED] Deputy Chief, will be responsible for the operation of the Branch.

25X1A9a

25X1A9a 6. Personnel changes occurring in the USSR-Satellites Branch included the transfer of [REDACTED] to the USSR Branch of D/GC and [REDACTED] who after completing his training program, assumed his compilation duties as of 30 October.

25X1A9a

25X1A9a

7. [REDACTED] Chief of the Chart and Graph Section, attended the Tecnifax Seminar Workshop held at Holyoke, Massachusetts, 27 - 30 October.

8. In fulfilling a request from the Department of State a map of Afghanistan, with Persian spellings, was completed and printed in quantity for transmittal to the Afghan government. Data for this map was supplied by the Afghans.

9. Chief, D/GC spent considerable time performing the duties of Acting Ch/G during the absence of [REDACTED]

25X1A9a

PROGRESS REPORT FOR THE GEOGRAPHY DIVISION

October 1958

I. ACCOMPLISHMENTS

A. Completed Work

✓ Production for October was particularly good. Completed work as listed below included 5 geographic intelligence reports in the CIA/RR-GR series; 1 geographic intelligence memorandum in the CIA/RR-GM series; 4 NIS sections and 1 contribution to a Chapter I Annual; 9 G/I geographic memoranda; and 1 support job in the G/S category:

	25X1A2d1	Requester
CIA/RR-GR-194	[REDACTED] UW Area: Kola Peninsula-Karelia Region	DD/P, Army, Navy, AF
CIA/RR-GR-195	25X1A2d1 [REDACTED] UW Area: Thailand	DD/P, Army, Navy, AF
CIA/RR-GR-196	Border Roads in the USSR-- Central Asia Area	25X1A8a1 [REDACTED]
CIA/RR-GR-198	Possible Guided Missile Testing and Training Ranges in Communist China	NSA
CIA/RR-GR-199	25X1A2d1 [REDACTED] UW Area: Egypt	DD/P, Army, Navy, AF
CIA/RR-GM-10	The Offshore Islands	Self-initiated
NIS 55	Ethiopia, Eritrea, and the Somalilands Chapter IX (Sections 90, 91, 92)	NIS Program
NIS 41B	South Korea Section 19, Chapter I	NIS Program
NIS 27	Turkey Contribution to Chapter I Annual	NIS Program
G/I-265 through 269	Urban Rural Population: Bulgaria, Rumania, Hungary, Czechoslovakia, and Poland	Collection Staff, OSI
G/I-270	Geographic Analysts of the Northern Ural Region	I/GM/RR (for DCI)

		<u>Requester</u>
G/I-271	Soviet Programs in Geodesy and Cartography Significant to Missile Operations	GMD/RR
G/I-272	Comments Concerning Argentine Action Against the Soviets in Antarctica 25X1A2d1	CSS for OCI Briefing Officer to Watch Committee
G/I-273	[REDACTED]	DCI for briefing of OCS
G/S-39	Novaya Zemlya	OCI for DCI

B. Planning of New Work:

Project initiation memorandum on two GM's were submitted: Macedonia and Overseas Chinese in Southeast Asia, both with November publication dates. The Chief, S/COM, levied a requirement on GG/S in support of ORR Project 46.2317, Economic Intelligence Regional Survey of Post and Telecommunications in the USSR, Part I. The increased importance of the Persian Gulf has created a need for a map that will be of use in questions concerning sovereignty and oil installations, and GG/N is preparing material for compilation of such a map.

C. Progress of Work in the Branches and Staffs

Far East/Pacific Branch: Several projects were completed, based on previous months' work: Three NIS contributions were submitted to the Coordination Staff; a limited dissemination of Possible Guided Missiles in Communist China, CIA/RR-GR-193, was made to NSA, the requester, and additional copies will be available early in November to others who are interested in this subject. The Offshore Islands, CIA/RR-GR-10, and the unconventional-warfare report on one Far East country were completed and disseminated. An article concerning Chicom maps and atlases for MR-56 was circulated and reviewed and is now awaiting final editing. The article on Chinese hydroelectric power potential awaits post-editorial review by the analyst, pending completion of other work. [REDACTED] presented an Area briefing on The Offshore Islands on 8 October. Conferences, briefings, debriefings, and coordination activities constituted a substantial part of the branch's activities.

25X1A9a

USSR Branch: Production progress for the month was relatively good. Completed work included: Border Roads in the USSR-Central Asia Area, CIA/RR-GR-196, was forwarded to the requester, [REDACTED] one UW report was completed; Geographic Analysis of the Northern Urals Region, G/I-270, answered a request from I/DM/RR; and a brief on Novaya Zemlya, G/S-39, was provided for OCI. The study on Agroclimatic Aspects of Corn Production in the Soviet Union, CIA/RR-GR-197, requested by M/AS/RR, is in production. Much research time is being committed to the [REDACTED] with five analysts now participating. Other research efforts are being concentrated on a population study for OSI, the UW studies, support work for the Guided Missiles Branch, and the MR article on "Soviet Regional Monographs."

25X1A8a

25X1A4
25X1X4200330004-9

Europe Branch: A series of geographic memoranda -- G/I-265-269 -- giving estimates of urban and rural population of five European Satellites were completed and sent to the Collection Staff, OSI. An article on Hungarian mapping and another on travel restrictions in Hungary for MR-56 were reviewed. Draft of a tentative GM on Macedonia was completed and submitted to the Division Chief. Progress was made on two UW studies, the evasion geography for Czechoslovakia, and the Bucharest city plan. Proof copy of Civil Divisions of the World, Part V, was reviewed. A letter of appreciation was received from the ONI, requester for The Austria-Hungary Border Zone, CIA/RR-4R-191. Problems continue to arise in connection with the coordination of map procurement requirements by D/GL.

Near East/Africa Branch: One UW study was completed and disseminated during the month, and a pilot UW study for the office of Special Warfare is well in hand and more than half complete. An Area briefing on 29 October was conducted by [REDACTED] who discussed the problem of Race Relations in Africa South of the Sahara. The Office of the Geographer, Department of State, was given extensive assistance on one item and another is under way. A Portuguese possession in Africa; comments and criticism of a proof copy of the new NIS map of the Middle East. Planning has been initiated for a map and text of medium length on oil concessions in the Persian Gulf.

25X1A9a

Following Branch discussions with the OCR Document Division and Library Reference Branch a study was made in OCR of the coding and recovery of information pertaining to more than one country. As a result of the study, changes will be made in the coding of sea boundaries, the Gulf of Aqaba will be given an area code, and more time will be spent encoding D/GG requests. In addition, OCR is currently considering area responsibilities for coding personnel.

Editing and Review Staff: Work during October was considerably heavier than average, but the only problem was and is the procedures to be followed in handling unclassified reports. Twelve edited reports and substantive memoranda were issued during the month. Three reports in the GR series are in reproduction, and two other reports of categories that are still uncertain are in active editing. MR-56 is ready for final typing but is held up because the author of the lead article has been sidetracked by work of top priority.

Coordination Staff: The Chapter IX for NIS 55, Ethiopia, Eritrea, and the Somalilands, the Section 19 for NIS 41B, South Korea, and the Section 19 contribution to the Chapter I Annual for NIS 27, Turkey, were completed and forwarded to OBI during October. Coordination of Chapter IX of NIS 2, Ireland, was held in abeyance during October because the coordinator was on leave. Work was begun on Chapter IX for NIS 102 and 70, which are due in January and February, respectively.

Special Research Staff: A briefing memorandum for the DCI was prepared, G/I-273, and a contribution to a GMIC paper was accepted, G/I-271. Attendance at a USAF-sponsored conference on gravimetry disclosed

U.S.-West German break-through in instrumentation and provided added insight on the value of the vast Soviet world oceanographic survey program to the achievement of a world datum. A conference with the Department of Commerce on loopholes in the illegal diversion of superior U.S. gravimeters to the Sino-Soviet Bloc led to Commerce-initiated action to close off the loopholes. Further discussions with OTR led to the acceptance of an assignment to give a three-hour briefing on astronomy, geodesy and gravimetry to a special course for DD/P case officers in December.

25X1A9a

25X6AF0 [redacted] continued work on Activities of Non-Soviet Countries in the Antarctic, preliminary report on which is planned for the U.S.-proposed conference on Antarctica. The CIA contribution to the Chapter IX on [redacted] was virtually completed and is in typing. Further conversations were held with the Department of State regarding the Ecuador-Peru boundary situation, about which questions were raised in connection with CIA/RR-G-20, International Boundaries in Latin America. Several spot requests were filled.

II. RELATIONSHIPS OUTSIDE THE GEOGRAPHIC AREA

✓ The Chapter IX Subcommittee proposals that schedules be relaxed, which were forwarded to AD/OBI 2 September, have not yet been presented to the NIS Committee. The AD/OBI is exploring the possibility of reducing the total time required for the production of Chapters IX, Sections 19, and the Section 19 portions of the Chapter I Annuals without changing the commitments. He recommends substantial cuts in the information included in the Sections 19 and the Section 19 portions of the Annual (or even, as a last resort, the elimination of both) in preference to a change in Chapter IX production. At a meeting with the Chapter IX Coordinator and the Chief of the Coordination Staff on 27 October, the AD/OBI presented reduced versions of the Section 19 and the Section 19 portion of the Annual for NIS 7 for consideration. A follow-up discussion will be held at a later date.

✓ The third meeting of the ad hoc committee established for consideration of graphics for Section 19 was held 6 October, and a report of actions to date were forwarded to the Chapter I Coordinator.

Problems encountered in the coordination of text and graphics for NIS 77 and NIS 1 resulted in an effort to resolve deficiencies in the ACIC Chapter IX contributions. Also plans are being made for the Chief and Deputy Chief, Coordination Staff, and [redacted] of OBI to make a follow-up visit to ACIC in St. Louis in mid-November.

25X1A9a

✓ [redacted] consultation with Mr. Pringle, Department of State, regarding the Ecuador-Peru boundary (in connection with the questions raised by State regarding CIA/RR-G-20) resulted in request to PIC for review of the 1943-46 aerial photography of the area in order to determine just how much information is actually available from it.

25X1A9a

✓ [redacted] met with the Director and Deputy Director of the Washington Office of the Arctic Institute, and [redacted] 25X1A9a

25X1A9a

OSI, to discuss the Institute's Arctic Bibliography Project and our interest in it. Since it appeared that an overall CIA interest and possible commitment were involved, the matter was referred to the Deputy Chief, OCR, who designated [REDACTED] to attend a subsequent meeting at which representatives of the major interested civilian government agencies were present. An oral report was made to Dr. Guthe and [REDACTED]. A meeting of interested components within CIA will be held shortly to determine Agency interest and willingness to give financial support.

25X1A9a

25X1A9a

25X1A9a

Messrs. [REDACTED] attended the special meeting of ORR Standing Group on Exploitation of Foreign Language Publications at which the Chief, FDD/00 briefed the participants on the particulars and plans of the programs being set up by the National Science Foundation and by the Library of Congress to obtain translation services under the terms of Public Law 480. Estimates of translation requirements under the new program were submitted through St/I.

25X1A9a

Meetings in the fields of interest of the Special ^{Research} Report Staff were:

1. [REDACTED] attended the Interagency Meteorological conference on intelligence aspects of the IGY. 2. While attending a regular meeting of the Information Working Group on the IGY, [REDACTED] outlined the status of the Soviet-U.S. exchange of observers on ships. In addition, recommendations were made to restrict Soviet oceanographic visits in the U.S. and impress U.S. scientists to devote more effort to the collection of information of interest to intelligence.

25X1A9a

3. At the invitation of AFCIN 302X, [REDACTED] attended a week-long colloquium on gravity. Several interesting points evolved from the discussions: a. Surface sea gravimeters have been successfully developed and tested; b. this promises a development of a gravimeter for aerial gravity surveying; c. miniaturized, pocket-sized, gravimeters have been developed that further simplify gravity surveys; and d. U.S. scientists are becoming increasingly concerned because of the continued Soviet reluctance to share data.

25X1A9a

4. Through arrangement of [REDACTED] [REDACTED] joined in a dinner for Dr. M. M. Somov, head of Soviet Antarctic operations. As a result, additional insight on Soviet plans and a unique copy of the new Soviet Information Bulletin on expedition activities and findings were obtained.

25X1X6a

25X1A9a

III. ADMINISTRATION

A letter of appreciation was received from ONI, the requester, for CIA/RR-GR-191, The Austria-Hungary Border Zone. The study was a good example of the practical value of area orientation trips.

The Division Chief participated in the regular Clandestine Services Review and the Intelligence Orientation courses.

IV. PROBLEMS AND RECOMMENDATIONS

The Editing and Review Staff reports that the problem of how to handle unclassified reports of D/GC is acute, inasmuch as two such reports are fast reaching the publication stage: Agroclimatic Aspects

25X1A9a

of Corn Production in the Soviet Union, CIA/RR-GR-197, and China: Provisional Atlas of Communist China, which will probably be issued as a G-report. [REDACTED] is following up on the latter, and it is hoped that any decision arrived at will serve as official precedent for other unclassified reports.

✓ We believe that D/GG should be supplied with a final copy (in addition to the preliminary rough draft which is now shown us) of memoranda on map procurement prepared by D/GL Domestic Procurement Branch and that the final act of "coordination" by D/GL should be a phone call to see if we agree with this final copy. We continue to run across mistakes in the final drafts sent us, even though the D/GL representatives had discussed the requirement with us previously. As it now stands, we have no assured chance to call these to D/GL's attention before the requirement goes out.

V. SCHEDULED WORK

MONTHLY REPORT FOR THE MAP LIBRARY DIVISION
October 1958

1. The Reference Branch serviced 1,304 requests for maps with 27,953 maps, and 118 related requests with 205 publications. Thirty of the map requests were from Department of State personnel who came personally to the Map Library for map materials. While the October map request figure was high in comparison with October totals of other years, it was 73 less than last month's total. Place Name requests totalled 120, and miscellaneous reference questions, 229.

2. In addition, 144 requests for Air Targets charts and maps and 18 requests for Air Targets text items were serviced. This required the forwarding of 1,791 map sheets and 64 text items.

3. The Reference and Processing Branches have started to implement the program to retire to the Records Center outdated Sample File copies and surplus stock of GSA-published maps.

4. The Cataloging and Indexing Section added to the Loan Copy Collection 1,188 new map titles comprising 3,166 sheets. New publications processed for retention totalled 164 titles. 246 new SAC charts were indexed and 97 publication entries were added to the Union Catalog.

5. 5,202 foreign-published maps were received by the Foreign Procurement Branch during October. [REDACTED] Taiwan, [REDACTED] Brazil, [REDACTED] and Saudi Arabia are among the leading countries from which maps were received.

6. Significant items which were received from foreign sources during October included 1958 economic maps on Africa and the Near East; a 1958 Bulgarian transportation map; an atlas-like volume of 32 maps showing the Iran Petroleum Company installations in the Middle East; a number of East German maps; and a 1958 list of place-name equivalents for former German territory beyond the Oder-Neisse line. A 1958 map of Peking has been received via Hong Kong. Significant items received through OO/C included a 1958 "Official Map of Petroleum Zones of Libya" and "Report on Water Supply and Transmission for Rangoon," August 1958.

25X1A9a

25X1A9a 7. [REDACTED] returned to Bonn on 18 October, following exchange negotiations and procurement in Yugoslavia, and departed for Poland on 27 October. [REDACTED] is in Spain and plans to return to Paris on 14 November. [REDACTED] completed his mission in Finland on 31 October. 25X1A9a [REDACTED] was in Turkey throughout October and while there spent one week in Istanbul. [REDACTED] spent October in Tokyo. He consulted
